## Дополнительные материалы к заявке "Постерная онлайн-конференция как площадка для презентации результатов проектной работы"

## Критерии оценивания постера

Category	Criterion
Overall fit	The poster completely and succinctly describes all of the basic components of the research: background (the main idea and motivation for the project), data/methods employed, preliminary findings of the review.  The poster accurately and clearly explains the key concepts, ideas, and results.
Insight	Theoretical (methodological) approaches used in the field are clearly formulated, debates between them are identified.  The poster shows how these approaches have changed as the field was developing.  The current state of the field is commented on: gaps are identified that other researchers can contribute to.
Content organization	The poster has a logical, intuitive sequence of information.
Poster design	The poster is attractive in terms of design, layout, and neatness.  Graphics are easily viewed and related to the topic, making the material easy to understand.  Graphics and text are balanced.  Background and color choice enhance readability.  There are no grammatical/spelling mistakes.
Delivering	The presenter interacts with the readers, helping to grasp the information.  The presenter demonstrates full knowledge of the material and can explain and elaborate on expected questions.
